THIRD  
ANNUAL  
SALE

### ***On The Front Cover . . .***

Bapton Constructor  
is shown with a  
group of his first  
calves. We now have  
twenty Constructor calves  
at Louada. There will  
be at least twenty-five  
by sale day.

Fifteen of the thirty beautiful females that will sell in the 1957 Louada Sale.

### **At Louada . . .**

We are not interested in producing just the occasional single outstanding animal. Our purpose is to develop potent strains — uniform from start to finish — blood that will reproduce that same uniformity for generations for Louada customers and their customers.

Campbell and "Skip" Lamont, Guelph, Ontario, study four of the bulls that sold in last year's sale — all sons of Calrossie Armada. Left to right, Louada Principal, purchased by Pancake Ridge Farm, Mentor, Ohio; Louada Mandate, Carl Stander, Mansfield, Ohio; Louada Neptune, Roslyn Flett, Oakwood, Ontario; and in the foreground, Louada Victorious, Penningroth Bros., Wellman, Iowa.

If the thirty-six Calrossie Armada bulls sold in the last three years, and the eleven to be sold this year, could be presented in a single demonstration, it would be a parade of the most uniform group of bulls ever calved in North America by one sire.

Louada Battleship. Photograph taken at seven months of age. This great young bull, selling as Lot 3, is generally considered the best son of Calrossie Armada calved to date.

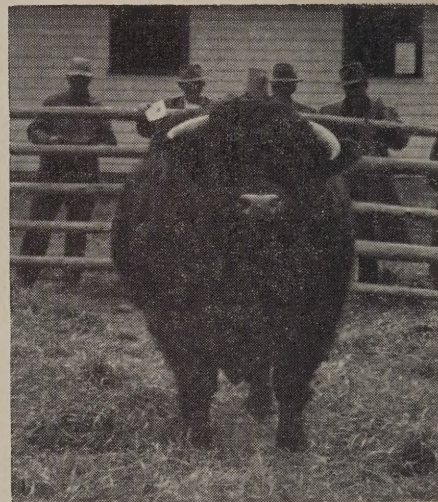

There are some things in life you owe yourself. If you are a breeder of Shorthorn cattle it is important to know, first hand, what is going on. Find out for yourself why America's leading herds are looking to Louada as their source of improvement. You can't appreciate Louada until you have seen the herd. Bapton Constructor will be a part of your future. You need to see his calves.

# A Trip you will Never Forget!

Louada Forager, top selling bull, 1956 Louada sale and now the property of Avenel Farms, Bethesda, Maryland.

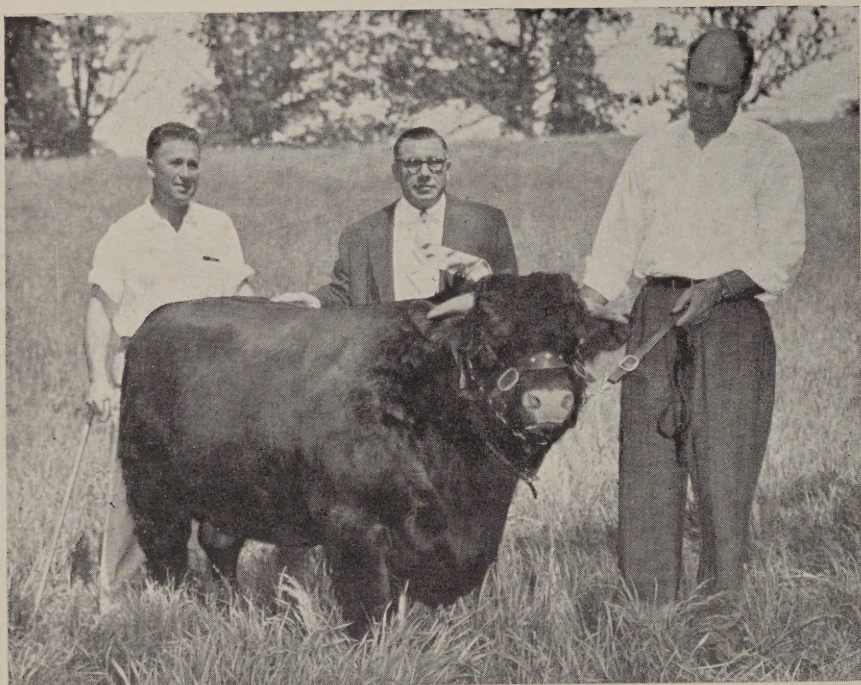

At left, and below, heifers sold in the 1955 and 1956 Louada sales. Join the group that will be inspecting our best offering of all, Monday, October 21.

Don't come alone — bring the Short-horn gang in your community with you. They will enjoy it, too.

Bapton Constructor. This picture was taken at the welcoming for him the day he arrived at Louada, June, 1956. Left to right, Wilbur Donaldson, manager, Louis Cadesky, owner, Kenneth Wells, Veterinary Director-General for the Dominion of Canada.

The finest people in the world are in the Shorthorn business. Through the two previous annual Louada sales, it has been our privilege to welcome cattlemen from practically every state and province and other countries.

Every decision at Louada is made with the best interests of the breed in mind. Each year there are important developments in our herd program, and, of course, 1957 is of special importance with the introduction of the first calves by Bapton Constructor.

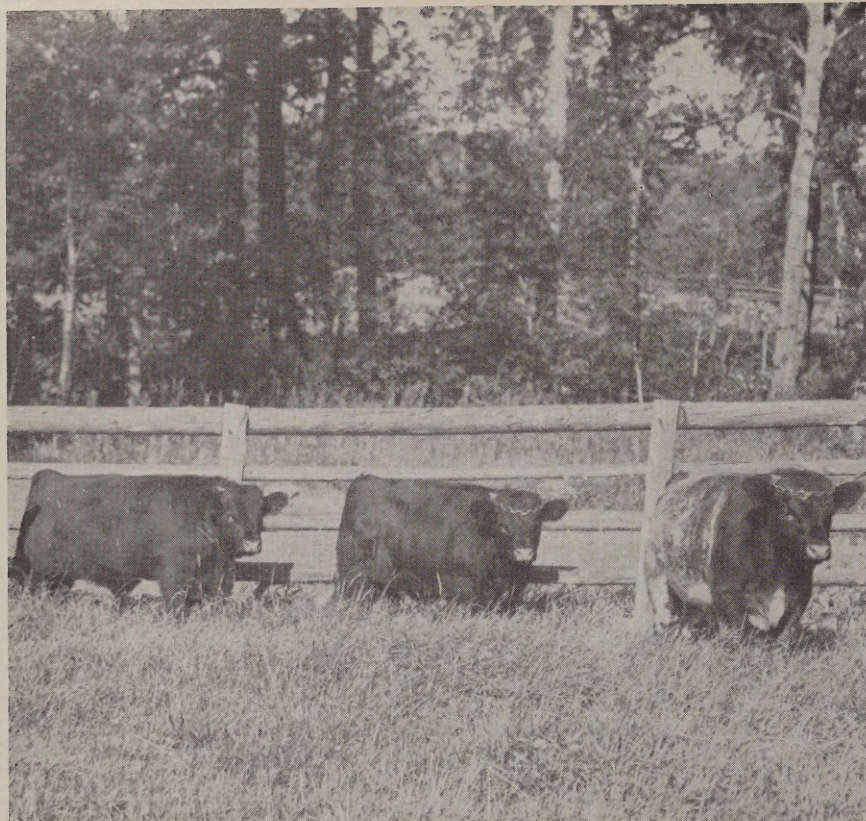

Plan to arrive by Sunday for a leisurely inspection of the herd. During the evening we will hold an open house at the lodge where a buffet supper will be served. This will be your best opportunity to meet friends old and new.

**CALROSSIE ARMADA**

The true measure of any bull is the consistency with which he transmits his superlative qualities to his offspring. The value of any bloodline lies in its ability to breed on into succeeding generations.

No bull that has arrived on the Shorthorn scene in the past decade has so consistently stamped every calf as has Calrossie Armada. Great heads, rugged legs on every corner, uniform colors, splendid type, style, and character are what you expect to see, and do see, in every Armada calf. They are RED MEAT bulls.

During the past three years we have used also a number of different sons of Calrossie Armada in the Louada program. When the calves by Armada — and the calves by his sons — are grouped together, no one can distinguish between the calves by the old bull and those by his sons.

If you have been the victim of up and down calf crops, of bulls that sire one or two good ones a year, you will be the first to recognize the importance of having a sire that can leave you uniform bulls to sell, and females for herd replacements that will remove the up and down appearance from your own herd.

We wish it were possible to parade before you the 36 sons of Calrossie Armada that have sold in the past three years and the eleven of this bloodline that will sell this year. It would be a parade of the greatest group of bulls from one bloodline ever sold in such a short span of time. Calrossie Armada was a bull the breed needed. The record of his sons will spell out the story in an even more far reaching manner.

It is not necessary to comment on such a sire's pedigree. We would like to note that Calrossie Armada had two full brothers. One was the 1955 Perth champion and sold for \$25,000 to Australia, the other is in service at Naemoor in Scotland.

The head of Louada Commander, son of Calrossie Armada, purchased in the 1955 Louada sale by True Buckmaster, Portland, Indiana.

***Sons of Calrossie Armada are at work building a better breed . . . in ten states and three provinces.***

Third prize pair of calves, 1956 International. Louada Favorite, reserve grand champion bull, 1956 Royal Winter Fair, now owned by McKinley Farms, Morpeth, Ontario; and Louada Princess Royal 6th.

On these two pages are six of the Louada groups exhibited at the 1956 International. Three other Louada groups are shown on pages 36 and 37. With as many as 21 entries in these group classes, Louada placed no lower than third in any class.

All of the bulls shown and two of the females were sold in the 1956 Louada sale. All but two head are by Calrossie Armada. These two are by his son, Louada Forager.

These groups were not made up of carefully switching four or five animals from one group to another. How many different Louada productions are pictured on these four pages? Count closely. You will find nine.

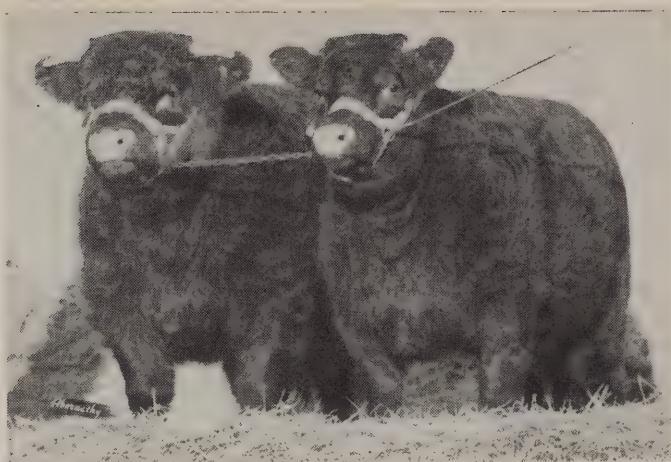

Fourth prize two bull group, 1956 International. Left, Louada Principal, now owned by Pancake Ridge Farms, Mentor, Ohio. Right, Louada Favorite. Louada also exhibited the third prize two bull group.

Every Shorthorn breeder should visit Louada Farms -- not just once, but as often as possible. You will leave with a renewed confidence that from such patterns as are being molded here, our breed will expand tremendously in popularity.

Not only has Louada invested liberally in herd bulls -- \$27,000 for Calrossie Armada, \$50,000 for Bapton Constructor, but both bulls have now proved themselves beyond question. You will see another great group of bulls sired by Calrossie Armada and his sons, including a bull that is probably the best of this potent line calved to date. There will be twenty-five calves by Bapton Constructor. Every calf by Constructor will be on display, because there hasn't been a mediocre one, an undersized one, a fine boned, bad-legged or bad-headed one calved to date.

The Louada cow herd has reached the numerical point desired. For replacements it is necessary to save now only the occasional heifer along with outstanding additions imported from Scotland. Consequently, this year's female offering is the strongest yet brought forward.

These cattle are a vital part of your future. You owe it to yourself to have a first hand knowledge of this great herd.

**BAPTON CONSTRUCTOR**

Bapton Constructor, world's record priced Scotch Shorthorn bull at 15,000 gns., and acknowledged by most cattlemen as the greatest individual of the breed, was certainly no accident. His sire, Calrossie Constellation, is the most popular bull in Scotland today, having just swept the championships of the important summer shows in Scotland at four years of age.

The dam of Bapton Constructor is one of the most beautiful cows of the breed. We attempted to buy her as a baby calf. She was later sold to Bapton at a high figure.

The full brother of Bapton Constructor, Bapton Cairnbrogie, topped the 1957 Perth sale at 7000 gns., going to A. R. Cross, Calgary, Alberta.

**His Full Brother**

Bapton Cairnbrogie. Top selling bull, 1957 Perth, Scotland, show and sale. Sold for 7000 gns. to A. R. Cross, Calgary, Alberta.

**HIS SIRE**

## There is a Bapton Constructor in YOUR future . . .

**BE ONE OF THE FIRST IN YOUR  
REGION TO OFFER THIS POTENT BLOOD.**

It will be obvious to all who see the first calves by Bapton Constructor that ultimately this bloodline will be working breed improvement in every section of North America. You will find every Constructor calf possessing size, substance, ruggedness, smoothness, thickness from end to end, style and character. They are great doers.

There is a big advantage in being one of the first to offer this bloodline in your region. Two sons will be sold. Eighteen beautiful females will sell in calf to him.

Because cattlemen naturally expect more of such a bull, the first calves will be accorded the most discerning appraisal of any bull ever imported to North America.

# An interesting item about Calrossie Constellation

## the sire of **BAPTON CONSTRUCTOR**

Reprinted from the Scottish Farmer issue of  
Aug. 17, 1957

John Blume, Marellbar Farms, Libertyville, Illinois, judge of the 1957 English Royal show, is shown making Calrossie Constellation, sire of Bapton Constructor, the supreme champion. Gordon Blackstock, manager of Bapton, is at the halter.

"Calrossie Constellation, the senior stock bull at Bapton, owned by Mr. Cecil Moores, will not be seen again by the host of admirers he gained this year at shows all over the country, for he has now been retired from the showing with a record which few bulls are likely to equal. The decision to retire him from the ring was taken after he won the championship at Keith Show—the last of the important north-east events—which was held on Tuesday of this week.

"Those who saw him on Tuesday would agree that despite all his travelling—3,000 miles in all—he was looking as well, if not better than he did when he made his debut at the Highland show in June. He has won six championships since his Dundee success including the Royal Show at Norwich, the Great Yorkshire and the Royal Lancashire shows.

"It has been a remarkable year for this remarkable bull. It began in February at Perth where eight of his sons returned an average of almost 2500 lbs. and, although he did not sire the champion he was the sire of Bapton Cairnbrogie, the full brother to the 15,000 gn. Bapton Constructor, which topped the sale at 7,000 gs. The following week he was the sire of the top-priced bull at the Aberdeen sale—1,000 guineas for export, and then came the show season. . . ."

## Here's What They Are Saying In Scotland About The First Constructor Calves

*The Bapton Herd  
Old Meldrum, Aberdeenshire  
August 22, 1957*

*Dear Wib:*

*Our nine Bapton Constructor calves, five heifers, four bulls are looking wonderful. One of them, Bapton Copperfield, may stay right here . . . a tremendous head, very, very, near the ground and excellent behind.*

*However, Johnny's favorite is Bapton Clanroy. He is a late December and is the nearest thing to either Constructor or Constellation that we have had.*

*The heifer calves are equally good. We certainly hate to part with the Crocus Leta January heifer calf. She could very easily top our sale.*

*Sincerely,  
Gordon Blackstock*

One of the brood cows at Louada, Calrossie Augusta Aileen, and a day old Bapton Constructor bull calf.

*Wester Moy  
Forres, Aberdeenshire*

*Dear Wib:*

*The Constructor calves at Cairnbrogie are tremendous. The four bulls will make quite a splash at Perth next year, although Bapton will likely keep one to use.*

*Best regards,  
Willie Ferguson*

**Burnton Gordon** — As good a pedigree as could be written. Calved when his dam was twenty months old. His dam gives promise to be one of the best cows of the breed. His grand-dam is generally acknowledged to be the best cow at Kair. A great calf that resembles his sire very much, at the same age. Truly a great stock bull in the making. When the few sons of Bapton Constructor that are at Bapton are sent to the Perth sale next February, it will make his offspring harder to buy on this side of the water.

Louada Field Marshall. This son of Calrossie Armada was selected for W. E. Giddens, Madison, Georgia, by Reford Gardhouse in our 1956 sale. The price was \$1,300. **Louada Balmoral**—Another promising calf by Bapton Constructor from a good Millhills family. Note the bulls in this pedigree . . . Calrossie Constellation, champion at the Royal Highland, the Royal English and the Great Yorkshire shows in 1957; Aldie Jonathan Adonis, junior champion at Perth in 1952 and sold for a high price to Argentina.

We decided one of the chief features of the 1957 Louada sale, should be the sale of two of the first sons by Bapton Constructor. With this in mind we purchased Burnton Gordon, Lot 1, at the side of his mother in Scotland.

For the second Constructor bull, we thought it would be a good idea to present one of the first calved at Louada. We have tried to select our favorite. However, since these are youngsters (the first calves arrived at Louada in April), we are not certain which of these two is the best. Therefore, we will catalog both Louada Ambassador and Louada Balmoral, and a few days before the sale we will make our selection as to which will sell as Lot 2.

It is not the purpose of Louada to produce the single occasional outstanding animal. Our objective is to develop trains that will produce with uniform excellence from start to finish for us . . . and for Louada customers. All of the cattle in our nine International prizewinning groups were sired by Calrossie Armada, except two by his son, Louada Forager.

Third prize three bull group, 1956 International. Left to right, Louada Principal; Louada Commodore, now owned by L. J. Lichty, Ramsayville, Ontario; and Louada Third prize three bull group, 1956 International. Left to right, Louada Principal;

Third prize two bull group, 1956 International. Left to right, Louada Valiant and Louada Commodore.

The pictures of the other six prize winning Louada groups at the 1956 International appear on pages 12 and 13. These groups were not made up by carefully switching the same animals from group to group. Nine different Louada productions took part in these groups. All of the bulls and two of the females sold in the 1956 Louada sale.

Uniform Excellence
